This (and the previous page) is the branch of “平安定责”. Current design: after 5 seconds, the activity at previous page will navigate to the activity here.

A better design (will try to implement):

Once the information had sent to PingAn, user is able to close the app and do something else.

When the user move back to this app, the app should stop here.

Once the result comes out, if the user is outside the app, a notification should pop out, then if the user decide to return to app (by clicking the notification or directly opening the app), the app should appear this activity.

File the claim

Now you can file the claim
